

AUTOMATIC LABELING MACHINE FOR STILL AND SPARKLING WINE BOTTLES, CHAMPAGNE, R1000 MIX

Automatic linear labeller for precise labelling of still wine, champagne and sparkling wine bottles. The CDA R1000 Mix is an automatic linear labeller specially designed for still wine, champagne and sparkling wine bottles.

The machine can apply up to four labels (front label, back label, medal, neck label) to champagne and sparkling

wine bottles and also enables the crimping of aluminium and heat-shrinkable caps.

The R1000 MIX can label and crimp up to 1000 bottles per hour. This automatic linear labeller impresses with its labelling accuracy, ease of use and quick adaptation.

The R1000 MIX is perfectly suited for all bottle types (still wine, champagne, CAVA, sparkling wine, etc.) and all volumes (37.5 cl – 75 cl – Magnum – etc.).

The machine can be easily integrated into a future or existing bottling line.
