

AUTOMATIC LINEAR LABELLING MACHINE FOR THE PRECISE ADHESIVE LABELLING OF CHAMPAGNE BOTTLES AND SPARKLING WINE, R1000 FOILS

Automatic linear labeller for precise labelling of champagne and sparkling wine bottles. The CDA R1000 Foils is an automatic linear labeller specially designed for champagne and sparkling wine bottles.

The machine can apply up to four labels (front label, back label, medal, neck label) to champagne and sparkling

wine bottles and also enables the crimping of aluminium caps.

The R1000 Foils can label and crimp up to 800 bottles per hour. This automatic linear labeller impresses with its labelling accuracy, ease of use and quick adaptation.

The R1000 Foils is perfectly suited for all bottle types (champagne, CAVA, sparkling wine, etc.) and all volumes (37.5 cl – 75 cl – Magnum – etc.).

The machine can be easily integrated into a future or existing bottling line.
