

AUTOMATIC WINE BOTTLE LABELLER R1000/R1500

Automatic labeller (labelling machine) from the renowned French manufacturer CDA for labelling wine bottles, applies up to two labels (front label and back label). The device also allows for crimping/shrinking aluminium or plastic (PVC) caps. The speed regulation system ensures fast and efficient labelling, allowing for labelling up to 1500 bottles per hour.

This labeller impresses with its ease of use and quick adaptation (without additional equipment) to different bottle sizes (from 1/2 l to Magnum).

The intuitive touch screen makes it easy to enter settings.

As standard, the device applies two labels (front label and back label) printed on one roll.

The linear automatic labeller from the CDA R1000/R1500 series can be easily integrated into a complete bottling line.
