

COLD STABILIZER BLENDING TANK 600 L

Fully automatic cold stabilisation and dilution tank for alcohol distillates is the ideal solution for cooling and blending alcohol distillates prior to filtration or bottling.

The unit is equipped with a digital touch screen with an intuitive user interface, ensuring ease of use and control. The touch screen allows the operator to set and control the temperature point, as well as the different mixing programs of the agitator. Made of durable, brushed AISI 304 stainless steel (EN 1.4301) approved for contact with food, this unit is the ideal solution for cooling and dilution.

Capacity: 600 litres (80% fill recommended)

Min. temperature: - 5 degrees Celsius (recommended: -3 degrees Celsius)

Cooling capacity: 3.2 kW

Maximum power consumption: 3 x 16 A
