

COLUMN DISTILLER FOR VODKA, WHISKEY, GIN, FRUIT DISTILLATES

Professional distiller for the production of a wide range of grain and fruit spirits. Available capacities: 300, 450, 750, 1000, 1500 and 2000 liters.

Standard 3-shelf column. Each shelf is equipped with 4 proprietary caps that increase steam turbulence and contact time; enhancing and purifying the distilled alcohol to the greatest extent possible. The alembic is modular and can be expanded with a vodka column, gin basket or additional shelves to meet your unique distilling needs.
