

COOLING UNIT, CHILLER, ICE CHILLY

The compact IceChilly cooling unit, made of stainless steel, is an ideal solution for microbreweries, hobby breweries and smaller wineries that only need cooling for their applications.

IceChilly is available in three models, with cooling capacities ranging from 2.35 to 4.4 kW (3.15 to 5.90 HP). When used for flash cooling, it increases the efficiency of the device by ensuring a constant cooling temperature for a longer time.

CHARACTERISTIC

Cooling water temperature range from -6°C to +30°C

Ambient temperatures from +10°C to +32°C

Two cooling circuits for increased system safety

APPS

Passive cooling of fermentation and storage tanks

Cooling of must and wine for preliminary purification and stabilization

Cooling of rooms and warehouses - using additional fan coil units

TECHNICAL DETAILS

Available in three models:

IceChilly 25 / IceChilly 35 / IceChilly 45

Cooling capacity: 2.35 - 4.4 kW (3.15 - 5.90 HP)

Refrigerant: R290

Electrical connection: 230 V/1 phase/50 Hz

Water inlet/outlet: 3/4"

			IceChilly 25	IceChilly 35	IceChilly 45
TECHNICAL DATA	Cooling capacity at 0°C water temperature * at 15°C water temperature *	kW (HP) kW (HP)	1,62 (2,17) 2,35 (3,15)	1,85 (2,48) 3,30 (4,43)	2,30 (3,08) 4,40 (5,90)
