

HYDROPRESS LANCMAN 35, 55 AND 80 LITERS

LANCMAN VSX

Performed for pressing grapes, apples into juice, wine... Easy to work with, man must only connect the press with the water supply from the house (simply with the plastic hose). There is needed pressure for normal press work 3 or 4 bar (depend from press model). Press procedure is easy, fast and efficient... There is needed to do one press from 15 minutes... Light construction, cover, bowl and basket made from stainless steel quality AISI304, electro polished surface... Easy to be cleaned...

Basic equipment:

- pressure regulator (1-4 bar) for automatic pressing (more in instructions of the press),
- additional plastic bag for protection at pressing (cover of the press),
- green filter net for easier pressing and emptying of the press,
- transport wheels for easier moving of the press.

Additional equipment:

- filter bag for wine filtering.

MODEL	PRESS CAPACITY [LITERS]	WORKING PRESSURE	DIMENSIONS [CM]	WEIGHT [KG]
VSX 35	35	1-4 bar	55×55×96	25
VSX 55	55	1-4 bar	60×60×96	35
VSX 80	80	1-4 bar	60×60×118	40
