VIBRATING SORTING TABLE

VIBRATING HOPPERS DELTA AEV/CVE

The vibrating plate hopper enables the reception of hand-picked or mechanically harvested grapes, the effi cient draining of free juices and the grapes distribution by vibration without grinding.

The vibrating hopper meets the following requirements :
• Reception of manually or mechanically harvested grapes
• Even distribution of grapes without grinding up
• Efficient draining of free juices

Significant advantages :
• Mixed input (manually or mechanically harvested)
• No moving mechanical parts (no screws or conveyors...)
• No grind up of grapes
• Guaranteed user safety
• Guaranteed hygiene and simplified cleaning
• Less maintenance and mechanical upkeep

Technical characteristics :
Capacities : 30hl - 40hl - 50hl - 60hl - 80hl - 100hl - 125hl - 150hl
Flow rate : from 2 to 100 t/h according to the models.
